

WOODEN CHAIR PARTS Collection Book - 2026

®Papelci

THE QUALITY AND ESTHETICS OF THE CHAIR STARTS FROM ITS FOUNDATION

As Papelci, we offer our customers an experience beyond their dreams by taking innovation, aesthetics and comfort as our guide and combining the passion for ergonomic design, sustainable production and functional furniture with the latest technologies of the age.

In our company, which has become famous for its agility in production since 2018, we adopt an innovative production style that aims to expand the product horizon day by day by diversifying a wide range of special and project-oriented original designs.

Papelci, which has been making its customers' dreams come true since the day it was founded, transforms wooden and plywood chair frames, plywood chair seats and backrests into eye-catching models with its R&D and production process and attention to details.

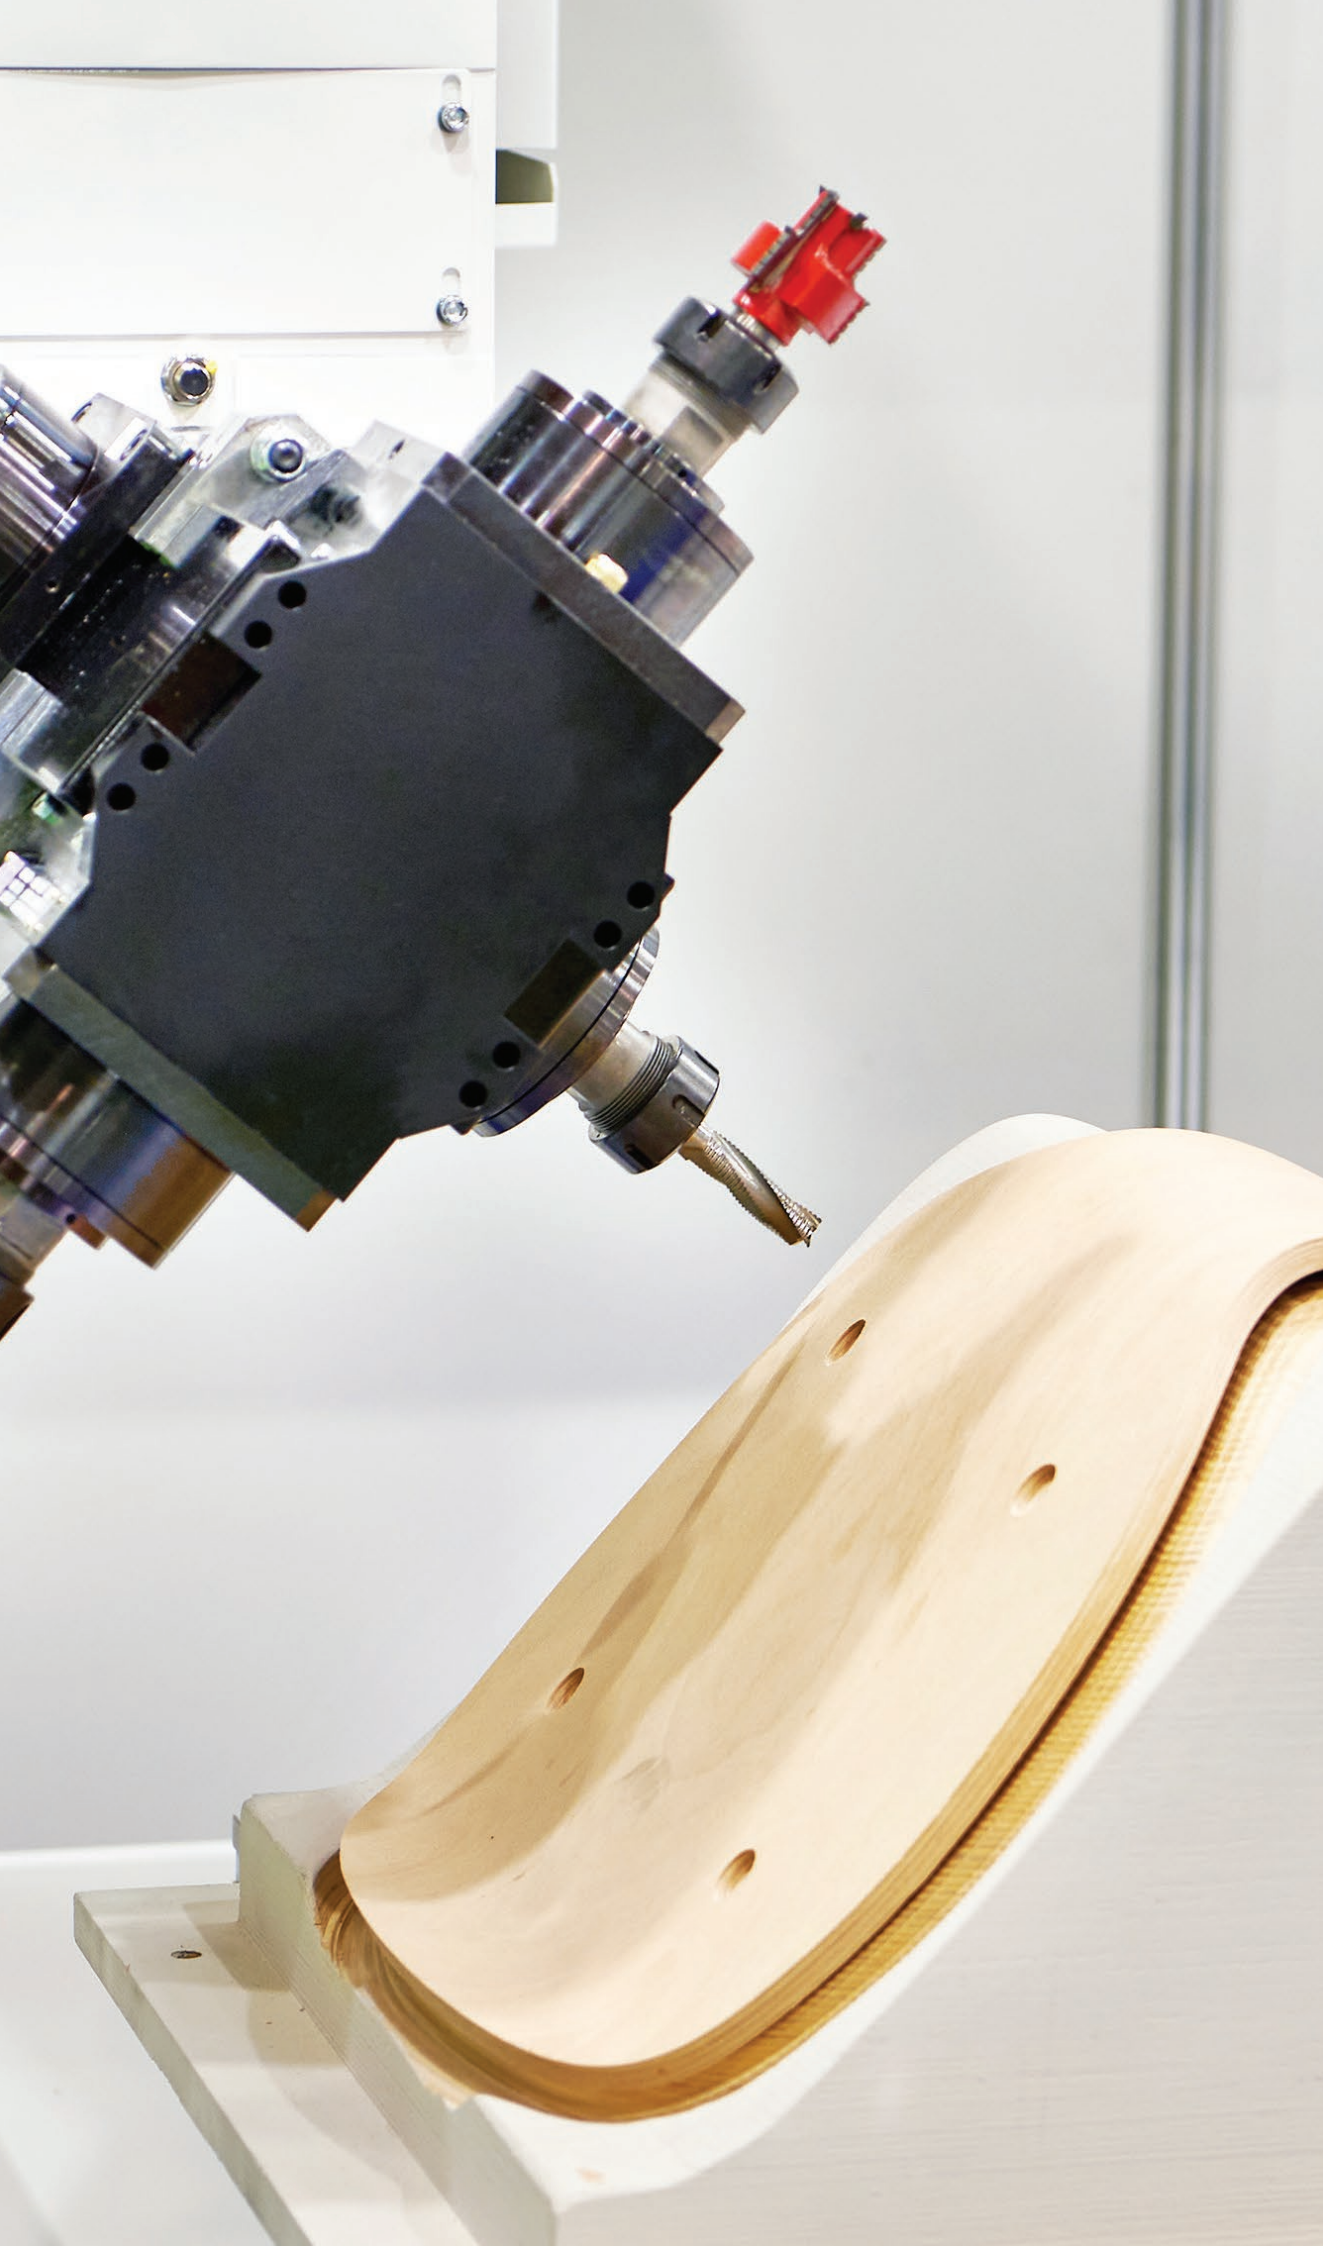

We would be happy to host you in our 15000 m2 factory in Adana or our 350 m2 Showroom office in Inegöl, so that you can experience Papelci's striking design, superior workmanship and high quality first hand.

FAST MANUFACTURING MAXIMUM QUALITY.

by
Papelci

Papelci has gained the trust of its suppliers with its principle of maximum quality and superior production performance without compromising, and has come a long way in 2025. We are setting out to undertake larger projects in 2026, together with the infrastructure projects we have completed this year and our new colleagues.

With the supplier and field research we have conducted, we will continue to offer our customers exactly the product they want, with maximum quality and fast manufacturing standards.
